Product 6-Pack

Enhancing your hunting experience this fall

NEW MOJO

Trying to stay ahead of the competition and the ducks, this newly designed decoy takes duck hunting to the next level. Redesigned housing greatly reduces noisy vibrations. Motor and battery attach directly to the support pole. Remote control included. Body is made with flexible skin making it quieter and more durable. Plus, they are currently working on a variety of different skins to make different duck species with the same housing unit. This just may be the difference maker this fall. (\$170.00)
